

# Repair of SIGNATURE BD bracket

This bracket does not hold the feet.

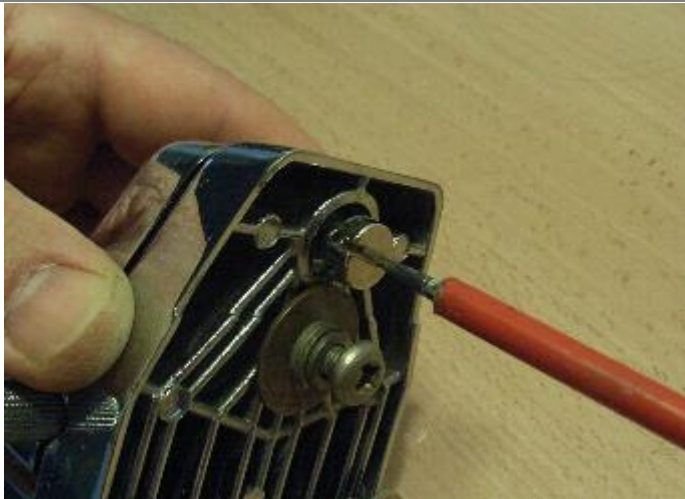

The feet moves because the bracket

cannot hold it tight

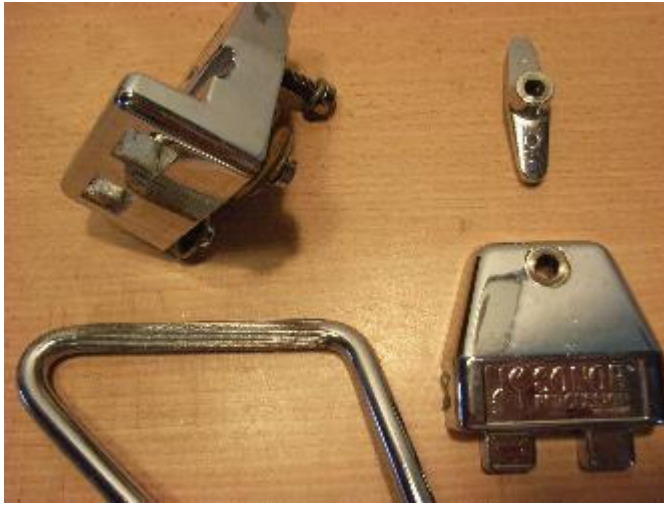

Here is a solution!!

remove big wingnut

remove this screw

this is what you have

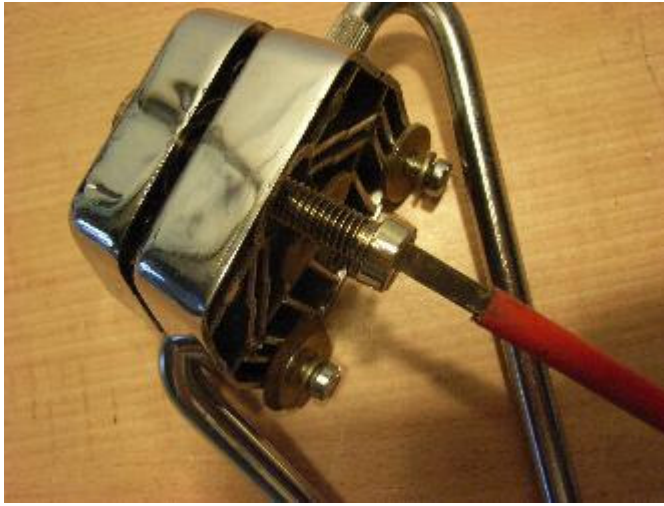

fabricat 1mm thick metal piece:

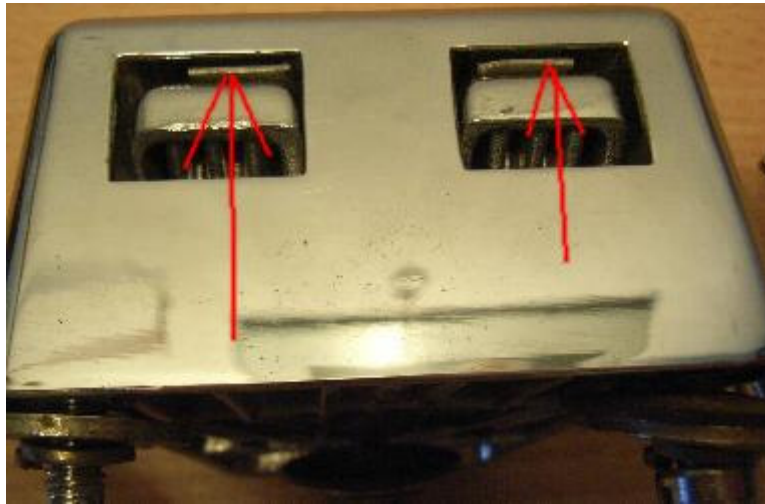

slide them in like this, Please do exactly like this(see the feetposition)!!!

here we are

put screw in again

this is what you see on the  
bracket

this is what you see on the  
bracket

and it works again!!!
